Headquartered in St. Petersburg, Florida, Jabil has 100+ facilities in 28 countries and 180,000 employees worldwide.

### **Acoustics Engineering Intern (6- Months) – San Jose, CA:**

Jabil offers paid interns within our Precision Engineering team. Intern will aid in the development of manufacturing processes that lead to the assembly of some of the world's most innovative products. You'll receive firsthand experience in laboratory assembly, testing, and analytical activities associated with the development of advanced technologies specifically in acoustics. We are looking for students who are passionate about working and learning all audio technologies such as loudspeakers, microphones, ultrasonics and acoustic materials used in printed diaphragms, piezo-electrics, meta-materials and membranes. Intern responsibilities may include:

- Programming, operating and maintaining of all lab equipment
- Building prototypes
- Developing CAD using Solidworks
- Working with FEA software tools
- Performing and running tests in a professional laboratory setting
- Literature research, Data collection and report summaries
- Exposure and experience in working with global cross functional teams
- Flexible work schedule given potential deadlines
- May perform other duties and responsibilities as assigned
